BACKGROUND

Advancements in medical technology, stoma care devices have remained largely stagnant since their invention a century ago. This addresses the unmet clinical needs in stoma care, focusing on the persistent challenges of adherence, ease and affordability, highlighting the need for innovative solutions.

Dr. Varun Dattani and Dr. Manish Hande, third-year residents from the Department of General Surgery, Sir J.J. Group of Hospitals, earned the distinguished honor of being invited to deliver oral podium presentations at SAGES 2025 in Long Beach, California—the world’s leading conference for gastrointestinal surgeons.

Under the guidance of Dr. Ajay Bhandarwar, Dr. Girish Bakhshi, , Dr. Manish Hande presented our guidelines for the management of Body Packer Syndrome, contributing to the refinement of international management protocols. Dr. Varun Dattani presented on Intra-operative enteroscopy with laparoscopic instruments and Quantitative ICG angiography in bowel anastomosis, highlighting innovative approaches in minimally invasive surgery.

Their presentations were well received by the international surgical faculty, further reinforcing the institute’s commitment to academic excellence and its impact on the global surgical community. Dr. Varun Dattani’s presentations won the first and third prizes in **the Best video category** at SAGES 2025, highlighting the excellence of our General Surgery department on the international stage.
