8	Authorized vendors Bank details, GST, PAN card / TAN card and other relevant document mandatory in commercial envelope.
9	General Terms & Conditions according to Sir J J Hospital lab material procurement to be followed for below all materials.

Sr.No.	Name Equipment's	Specification of Consumable Items	Requirement of Total Qut.	Rate Per Pack Including GST (Rs)
1.	Advanced Hemodynamic Monitoring System	<b>Acumen IQ Sensor- Product Code AIQ 85</b> Sensor should enable to proactively optimize perfusion using continuous blood pressure and advanced hemodynamic parameters. This should provide predictive decision support which will detects the likelihood of a patient trending towards a hypotensive event* before the event occurs and provides with insights to understand the root cause and inform a potential course of action for the patient. It should get connected to any existing radial arterial line and automatically calculates key parameters every 20 seconds, reflecting rapid physiologic changes in surgical and nonsurgical patients in intensive care settings. It should be able to give parameters such as CO, CI, SV, SVI, SVV, SVR, SVRI, Ea Dyne, dp/dt and HPI.		
		<b>FloTrac Sensor- Product Code MHD8</b> FloTrac Sensor for continuous hemodynamic monitoring parameters such as CO, CI, SV, SVI, SVV, SVR, SVRI. The sensor should be compactable with the Hemesphere monitor. It should have bifurcation that should give IBP readings on bedside monitor with one cable and with other cable it should be able to give continuous hemodynamic parameters on continuous basis.		

	<b>Advanced Hemodynamic Monitoring System</b>	<b>Foresight Sensor- Product Code- FSESL</b> Tissue oximeter sensor which is compactable with Hemosphere monitor to give cerebral as well somatic oxygen saturation and should have 5 wavelengths to collect better data from the patient. The sensor should have 2.5 Cm depth penetration to collect accurate data. It should be available to give adult and pediatric oxygen saturation.		
2.	<b>DVT Garments</b> <b>Product Code DVT 20</b>	Technical Specifications for DVT Garments Calf / Thigh sleeves should be available in size of; Standard calf length sleeve to 43 cm circumference Large calf length sleeve to 58 cm circumference Standard thigh length sleeve up to 71 cm circumference Large thigh length sleeve up to 89 cm circumference Standard size foot sleeve; UK Men/Women up to size 7 Large size foot sleeve; UK Men/Women size 7½ or above		

  
Dean

Sir J.J. Group of Hospitals, Mumbai.

N.B.

1. The quotation will be accepted up to 5.00 pm on the working day.
2. The terms and conditions with delivery date should be mentioned.
